HOMES

Under Water at Guthrie and City Faces Flood

RIVER IS STILL RISING

5000, People Without Shelter and Many Were Rescued

Much Property Destroyed and Train and Street Car Service is at Standstill.

Guthrie, Okla., Nov. 30.—Seven victims are already mentioned in reports from the flooded regions of Oklahoma, Texas, Southwestern Missouri and Southern Kansas. Several are missing. There is an enormous property loss. Rivers are rising in some places at the rate of a foot an hour. The worst flood in years is expected. Nearly 5,000 are homeless. Rescue parties in boats are covering the inundated area. The full loss of life will be unknown until they return and the waters subside. Distress signals were fired frequently during the night. Practically every river in this region is affected.

Guthrie, Okla., Nov. 30.—As a result of a 48 hours' downpour in the valley of the Cottonwood river and its tributaries, the Cottonwood overflowed here Sunday afternoon. Several hundred homes are partially under water in West Guthrie and 3,000 people are homeless. The river is rising 12 inches an hour. Hundreds of people who refused to get out of the flooded district, believing that the river would not rise as rapidly as it did, fired shots of distress before sunset last night and hundreds of boats with an army of rescuers brought the tardy ones to places of safety.

So rapid was the rise in the Cottonwood that 20 head of cattle in the affected district were drowned before they could be gotten out of the waters. Street car service is completely at a standstill. The city's water plant is under water. Five thousand dollars worth of cotton belonging to the Farmers' Oil mill was washed away down stream and 2000 bales are still in the water. The Atchison, Topeka and Santa Fe roundhouse and shops are inundated.

All railroad trains in and out of Guthrie have been annulled. Near Seward, Okla., the Santa Fe tracks are off and the railroad bridge at Red Rock has been washed out. The Missouri, Kansas and Texas and the Fort Smith and Western railroads report many miles of track out near this city. According to reports reaching this city, many miles of track are either washed out or so completely under water that it is impossible to move trains.

ISSUES FLOOD WARNINGS.

Washington, Nov. 30.—The weather bureau tonight issued flood warnings for the lower Neosho and lower Arkansas rivers.

WRECK ON THE B. & O. RAILWAY

Pittsburg, Nov. 30.—Fireman G. E. Sidell of Chicago Junction, was crushed to death under his engine, and baggagemaster George Wheatcraft badly injured, in a wreck on the Pittsburg and Western division of the B. & O. railroad at Wilson's Bridge, near Vienna today. Several others of the train crew were severely bruised. The wrecked train was bound for Chicago. On the opposite track a freight train was leaving for Valencia when the engine bucked and a freight car was thrown over the west bound track, the passenger engine crashing into it.

REVOLUTIONISTS

Are Marching on Haytian Capital and It Looks As if It Is Doomed To Fail.

Washington, Nov. 30.—State department dispatches indicate that

revolutionists, under General Auguste Simon, are nearing the Haytian capital, and the government, under Nord Alexis, is doomed to fall within 24 hours. The president's plight is more hopeless on account of wholesale defections from his ranks and extreme measures are necessary to prevent desertions of his troops. Alexis is still firm in his desire to fight.

HEARING

Of Federal Dissolution of Standard May Be Continued Into Next February.

New York, Nov. 30.—Vice President Archibald resumed his recital of the oil trusts' marvellous growth at the hearing of the federal dissolution suit today. Commissioner Fergus said before the hearing started that he would not be surprised if it continued into February with few adjournments, save for the holidays.

Without a tinge of emotion, Archibald related how the Standard gulped down seventy corporations. The relationship between the Standard and Water-Pier Oil Co. which had been attacked in ouster suit in Texas, was established beyond a question. Archibald was in the midst of the narrative when a recess was taken.

CUBAN BANKS TO MAKE LOAN

Havana, Nov. 30.—Governor General Macon left for Washington today to lay before the treasury department the nature of the new Cuban loan of \$15,000,000. Local banks will take all.

MME. STEINHEIL

HELD FOR FAMOUS PARIS MURDER

Paris, Nov. 30.—The arrest of Mme. Steinheil, whose husband was strangled to death in his home in Paris

last May, has caused a tremendous sensation in France. Many exciting episodes have resulted from the efforts of the police to clear up the mystery of the artist's death, and the arrest of Mme. Steinheil followed damaging statements she had made against several other persons.

E. J. STELLWAGEN, WHO WILL ARRANGE TAFT'S INAUGURATION

Washington, Nov. 30.—E. J. Stellwagen, who has been appointed

chairman of the committee to arrange for the inauguration display next March, is a prominent business man in Washington. His appointment was made by Frank H. B. Check because of Mr. Stellwagen's previous experience in arranging such celebrations. He is a personal friend of Mr. Taft.

CLASH

Has Occurred Between Austrians and Rebel Troops

LATER WERE SUCCESSFUL

Government Considering Placing Bosnia Under Martial Law

Scores Injured Today When Rioting Was Resumed at Praue.

Vienna, Nov. 30.—Despite official denials no doubt between 15,000 and 20,000 Austrians were driven from the interior of Herzegovina in Friday's clash between the Austrian and rebel troops, the latter aided by bands from Montenegro and Serbia. The Austrians, it is said, suffered "severe reverses," but the loss is believed to be strategic rather than in the number of men slain.

The Austrian government is said to be considering the advisability of declaring Bosnia under martial law. Troops have succeeded the civil authorities at Prague where rioting was resumed today, scores being injured. Hungarian ministers have warned the emperor against attempting to transfer his power to Frank Ferdinand, heir to the throne.

GOV. HARMON FINDS LAW TO SUSPEND STATE OFFICERS

Columbus, O., Nov. 30.—When Judson Harmon becomes Governor of Ohio in January next he will set about fulfilling the pledges written into the Democratic state platform and reiterated on the stump during the recent campaign. The people will find that Ohio has a governor who cannot be hoodwinked or controlled by a ring of statehouse bosses. One of his first tasks will be to institute an investigation of the offices of the auditor and treasurer of state at Columbus, with a view to determining all the facts in relation to the deposits of public funds in certain favored banking institutions.

"The people expect me to make a thorough inquiry into this matter," he said. "And they have a right to know exactly what was done and the reasons thereof."

The governor-elect was not prepared to say what course he would pursue with respect to the state officers whose names will be sent to the senate by Governor Harris for confirmation during the special session of the legislature.

"I don't know what I will do about it," he said. "I've been so busy that I haven't had time to give it careful consideration, and, besides, I have no official information yet whether the governor intends to ask for the confirmation of his appointments. But just from curiosity a few days ago I looked at the statutes to ascertain my prerogatives and found that I had the power to suspend state officials and name their successors. Then I would have to give my reasons for their suspension to the senate at its next session, and if the body accepted them my appointments would stand. Otherwise the old officials would be reinstated."

Asked as to the policies he would pursue while governor, Mr. Harmon said:

"It is too early to go into details. My general aim will be to give the state a good administration. I trust the legislature and the governor will get along harmoniously in all matters pertaining to the public welfare. I have always maintained that where the best interests of the people are concerned there should be no division between the political parties. I shall not oppose legislation of that character merely because it is of Republican origin, and I hope the legislature will have corresponding consideration for my suggestions."

THE OFFICIAL FIGURES.

Columbus, Nov. 30.—The official count of the Ohio vote completed today gives Taft 63,591 plurality, and 23,072 majority.

W. J. BRYAN'S ELDER DAUGHTER, HER CHILDREN AND HUSBAND WHOM SHE MAY DIVORCE.

Lincoln, Neb., Nov. 30.—There is seemingly well founded revival of the report that Mrs. Ruth Leavitt, elder daughter of William J. Bryan, is about to seek a divorce from her husband, William Homer Leavitt, to

whom she was married when she was 18. Indeed, it is said that Mr. Bryan already has sent an emissary to Paris where his son-in-law is living, to arrange terms for the divorce. Mrs. Leavitt's legal residence is in Denver, but she and her two little children, who are the idols of their grandfather,

including Morris Carnegie, nephew of Andrew.

EXPLOSION OF METAL

COOKED MEN'S FLESH AS HOT BLAST BELCHED FORTH FROM FURNACE.

One Dead and Four Others Badly Burned and Cannot Live. Cause Unknown.

Toledo, Nov. 30.—Without a moment's warning a hot blast belched forth from the mouth of a furnace at the Toledo Furnace company's plant yesterday, killing one man and probably fatally injuring four others. John Daszply was burned to death; John and Michael Borsos, brothers, were horribly burned about the head, face and arms. Frederick McNicholas and Samuel Szoo cannot live, their bodies being one mass of baked flesh. While being removed from the scene of the accident to the hospital, flesh dropped from the legs and arms of McNicholas and Szoo.

The accident occurred shortly after the men had started to work. The two men were standing within a few feet of the furnace when the blast struck them. Their clothing was completely enveloped in flames and literally burned from their bodies. Just what caused the accident has not been ascertained, but it is believed the molten metal exploded.

TREATY IS SIGNED.

Cleveland O., Nov. 30.—The Japanese-American treaty was signed at 2:30 this afternoon.

CHAS. M. SCHAWB

Served With Summons in Suit to Recover \$10,000,000 Invested in Mexican Mines.

New York, Nov. 30.—Charles M. Schwab today was served with a summons in a suit to recover \$10,000,000 in Mexican mining property called the Santos Silver and Lead group. Alfred S. and Sidney A. With more are the plaintiffs. Several other prominent financiers are involved, in

DAVISON

Placed on Trial in Omaha Today For Murder of Dr. Rustin Several Months Ago.

Omaha, Nov. 30.—Charles E. Davison was placed on trial in the District court today for the murder of Dr. Frederick Rustin. It is believed the defense will be an effort to prove an alibi asserted by Davis at the preliminary hearing. The prosecution is relying on the testimony of Mrs. Abbie Rice, Rustin's paramour, upon whose sensational accusations Davison was arrested.

SEVEN HUNDRED REPORTED LOST

London, Nov. 30.—It is reported from Che Foo, China, that 700 lives were lost in a collision of two steamships, whose names are yet unknown.

COL. SATTERLEE

Will Succeed Assistant Secretary, Navy, of the Navy—Relative of J. P. Morgan.

Washington, Nov. 30.—The United Press authorized the announcement that Colonel Herbert L. Satterlee of New York, a wealthy relative of J. P. Morgan, has been tendered the post of assistant secretary of the navy, succeeding Assistant Secretary Newberry, who becomes secretary tomorrow on the retirement of McCall.

GOV. HARRIS WILL NOT ATTEND

Columbus, Nov. 30.—Governor Harris has been obliged to send rear to the annual banquet of the Ohio Society of New York on December 15. In place of his wife, Mrs. J. P. Morgan, who is the wife of the president of the society, occurs on that day.

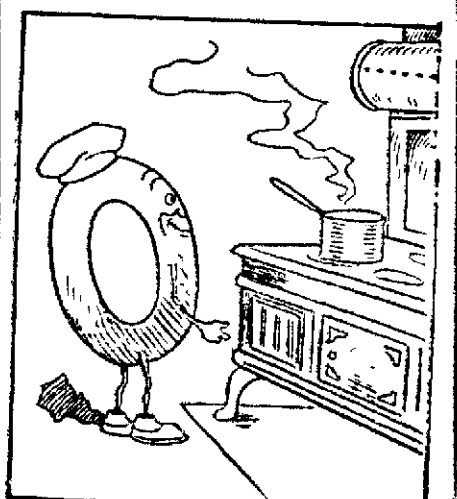

CLEVELAND DIOCESE

WILL BE DIVIDED WITH A RESIDENT BISHOP IN CITY OF TOLEDO.

Great Increase in Number of North American Catholics—Pope's Condition Alarming.

Rome, Nov. 30.—Archbishop Stagni, of Aquila, is slated to succeed Archbishop Falconis as the apostolic delegate to Washington. A division of the Cleveland diocese into two, with the resident bishop at Toledo, is to occur shortly according to today's report. The increase in the number of Catholics in North America is from 12,000,000 to 15,000,000 since the last census reported by Archbishop Glennon, of St. Louis. All audiences has been suspended indefinitely owing to a slight change for the worse in the Pope's condition. Fever has developed and obliged him staying in bed. His condition is not serious, but the people are alarmed.

WHAT IS IT?

What fruit? Answer to Saturday's puzzle—Candy.

LIST

Of Dead Miners Will Probably Reach 138

MANY ARE AMERICANS

Bodies Which Have Been Recovered Were Badly Mutilated

Mine Will Not be Cleared of Explosion Victims for at Least Several Days.

Marianna, Pa., Nov. 30.—Of 83 bodies already brought from the wrecked mine, 78 have been identified. The names of the other five will probably never be known, as the bodies are headless. The rescue work is going on rapidly. About 30 more bodies are in sight. Estimates as to the number in the mine differ. The man who gave out checks declares that 244 went to work Saturday morning. Rescuing squads say that more than 100 are still in the mine. One of the first bodies recovered was that of John J. Ilvill, Jr., nephew of John H. Jones, president of the Pittsburg-Buffalo company.

Pittsburg, Nov. 30.—Fifty-two bodies had been removed from the Rachel mine of the Pittsburg-Buffalo coal company at Marianna, where a terrific explosion occurred Saturday, up to this morning. Of these 22 have been fully identified. A number of other bodies have been located in the workings and are being brought out as rapidly as possible. At the present rate of progress nearly one hundred bodies will have been brought out by noon, and it is now hoped that most if not all will have been found by evening.

Chief State Mine Inspector James E. Roderick will be here today to start an investigation.

Pittsburg, Nov. 30.—Twenty bodies, all but two of them horribly mutilated, and a number of them dismembered, were Sunday taken from the mine of the Pittsburg-Buffalo Coal company at Marianna, 40 miles south of here, where an explosion occurred Saturday, killing many men and casting into gloom what was until then considered a model mining town of the world.

David G. Jones of the company came to the city last night. When he left the mine he said 34 bodies had been recovered, of which 13 had been fully identified. The company he said, could only account for 138 men in the mine at the time of the explosion. Searches already made convince those on the scene that all are dead, but many of the bodies are buried under debris that cannot be moved for some time. The only man who escaped from the mine after the explosion, Fred Erlinger, sustained injuries from which it is believed he cannot recover.

There is no doubt that the death list will reach 138 men. According to miners and others familiar with the number of men generally employed in the mine, the death list will exceed the company's estimate by at least 50. From no source can an accurate statement as to the fatalities be secured, and it is possible that the exact number of men killed will never be known. Of the bodies brought to the surface in an iron bucket, arms, legs or heads were missing from some and trunks of others were burned, bruised and cut.

By 3 p. m. 130 bodies have been recovered, of which 82 have been identified. Four galleries only remain unexplored.

COUNTERFEITERS

Are Caught in Chicago and \$3,000 Spurious Money is Also Found.

Chicago, Nov. 30.—A sensational "telephone surrender" of two alleged members of a gang of counterfeiters who circulated spurious \$5 bills was made today. Simulations of the bills discovered \$3,000 in counterfeit bills.

THE LICKING COUNTY LOCAL OPTION COMMITTEE'S PAGE OF FACTS

PRES. LEWIS SAYS ORGANIZED LABOR IS RESPECTABLE

Some Men in Newark Attempting to Disgrace It For the Mess of Pottage Given a Few Would-Be Leaders By the Whisky Crowd.

An attempt has been made by the saloonkeepers in Newark to corral the members of the labor unions in this city into the saloon-supporting organization. There are many union men who through respect of their wives and their children can neither be bought or driven by threats into supporting the tax-increasing, God-defying, boy-destroying saloon in Newark.

At the meeting of the Carpenters' Union, which was held at the regular meeting place in the Red Men's hall, on Monday evening, November 23, the union, as a body, proceeded to authorize the secretary and president to publish an article in the city papers to the effect that the use of their union in endorsing the "wet" side of the Local Option campaign by the so-called "Workingmen's Protective (?) Union" was unauthorized. This notice was published to the effect: "That public is hereby notified that the Carpenters' Union is in no way mixed in the county option campaign," and this notice was signed by Howard Andrews, as president. It was the sense of the union that the members of that body were privileged to use the right guaranteed them by the constitution of the United States, and so decide as their conscience directed, their duty as husband and father, and their duty to God might dictate.

This action so incensed the "wet" managers of the "Workingmen's Protective (?) Union" that they placed an advertisement in the daily papers stating that Howard Andrews, president of the Carpenters' Union, was not neutral, that he had signed the petition for the sale of liquor, and was working at all times to have it carry.

In the same advertisement they made the statement that if the county went dry, according to Birmingham, Ala., the carpenters of Newark would have to pay a license of \$35.00 before they could work.

This last statement was an absolute falsehood. On account of the low system of taxation on realty and personal property in the state of Alabama the license system has prevailed there long before prohibition went into effect in that state. In fact, Mayor Ward of Birmingham, said that the license has prevailed throughout Alabama ever since the commonwealth became a state.

Mr. Andrews, the president of the Carpenters' Union, authorizes the statement that any member of the union that desires to verify the action taken at the meeting last Monday night can do so by coming to the next meeting and hear the minutes read.

The Carpenters' Union is not the only organization in the city of Newark that has been getting its eyes open to the fact that they are being

LONDON THE BEST SATURDAY TOWN IN OHIO

Under the above caption, in the semi-weekly issue of the Madison County Democrat, a paper of over 4,000 circulation, published at London, Ohio, under date of Tuesday, November 24, we find on the first page the following article:

"Last Saturday, especially in the afternoon, hitching racks in London were at a premium, and many farmers found it a difficult task to find a place to hitch, as such a large crowd was present. It was thought at first that London, being a dry town would lessen the number of Saturday visitors, but so far the people flock to the county seat to do their shopping and transact other business, especially on the last business day of the week. Our merchants claim business was splendid last Saturday, and their collections were better than usual. Every business man should agitate the question of putting up more hitching posts, and as the Democrat suggested a few years ago, that it should be so arranged that these racks be erected on the side streets, free from the street cars, allowing more room on Main street, between the car tracks and the curbs. Other wide awake towns have adjusted this matter to the satisfaction of the traveling public by all the business going together and putting up racks on side streets, and it looks like a good business town like London should make some similar arrangements."

In the face of the fact that South Charlestown, nine miles away, has a number of saloons, and that the trade did not go there, but came to London, the dry town, and of the statement made by the merchants to the London Democrat that business was splendid and their collections better than usual, the claim made by the whisky advocates that voting the saloons out hurts business is shown by this town to be simply the dishonest statement of the dishonest saloon.

MORE GLASSWARE

More Gas Used To Produce It—Licking County Dry Will Produce And Use More Glassware Than Licking County Wet

In one of the recent saloon advertisements the question was raised: "Will the passing of Licking county into the dry column make any difference in the gas business?"

Of course not, except for good, and the writer of the article knew this when he wrote it, but wrote as he did hoping to deceive some farmers who have gas wells on their premises. In the first place, the saloons and houses of ill fame in Newark do not use enough bottles in a year to keep the glass factory working three hours and what few bottles they do use are returned and refilled.

Newark saloons keeping the glass factory going!

Think of it! The only thing on earth that they do keep going is the city police, the sheriff, the grand jury and the tax payers, paying the bill of expenses. They drink beer out of the bung hole of a beer barrel.

But unfortunately the Ohio Fuel Supply Co., the largest gas company in the state, knows that the drying of Ohio counties will boom the gas business, and are preparing to furnish larger supplies to the different cities and towns in the state.

Farmers of Licking county, look at the whisky advertisement, and then at the million dollars that the Ohio Fuel Supply Co., is investing to be ready for dry prosperity.

MEEK NOT AN ISSUE

With all due respect to the saloonkeepers and saloon advocates of Newark in their frantic attempts to draw the attention of the voters of Licking county away from the real issues of this campaign, which are saloons or no saloons, obedience of laws or no laws, the protection of the homes, the boys and the girls of Licking county or the wide-open policy which has heretofore cursed the homes of this county, we wish to say that Mr. J. F. Meek is not an issue of this campaign.

Mr. Meek was the originator of the advertising novelty business in Coshocton. His enterprise has changed that municipality from a stragling village to a splendid city. His genius added millions of property and opened the way for the employment of thousands in the city of Coshocton.

But that has nothing to do with the blight and the curse brought upon Newark and Licking county by the liquor traffic. Keep your eye on the ball, and don't have your attention drawn from the main issue.

The Saloon In Newark Must Go!

Some say that eating pig's a substitute for booze, and they say the apple crop is falling out this year.

Wrong Again, Whiskey Man

Another whiskey article in the Newark daily papers says, that the farmers and residents of the rural districts have no right to say what shall be sold in the city of Newark.

It further says, "we people in Newark do not tell you people in the country what you can raise on your farms and you've got no business to tell us what we can sell."

There's where you are wrong, again, Mr. Whiskeyman. You have laws that we cannot sell you diseased meats, but you want to sell our boys vile stuff which will poison their souls as well as their bodies? You have laws to prevent the farmer from selling to you decayed vegetables, rotten eggs, impure milk, and in fact, everything that we produce on the farm must bear a high standard according to the laws of the state and nation before it can be offered to the city markets for consumption by the people.

But on the other hand you want to prevent us from lifting our voice and casting our vote against your crime-breeding dens of vice, your soul-destroying nefarious whiskey saloon. However, as American citizens and honest men of the commonwealth of Ohio, we will reply to your vile aspersions on our rights by proceeding to cast our ballots on December 7th to eliminate forever from Licking county your gilded palaces of pestilence.

Don't be fooled by the saloonists' false "fly in the ointment" about taxes. Their cigar smoke arguments vanish like smoke and won't stand the light of intelligent analysis.

Despite their promise to be good, the bad saloonists are still selling drink to women, after hours and on Sundays.

THE VALUE OF A BOY.

Horace Mann once took a lively interest in some charitable work in Boston and urged its claims upon some of his friends by arguing that they would be well repaid for their efforts if they succeeded in saving one boy. One of his friends less enthusiastic than he, asked if it was not an extravagant statement that they would be well repaid if they succeeded in saving one boy. His answer was: "Not if it was my boy." How many of the fathers of this town would be willing to trade the small income from the saloons for ruin of their boy? Yet bear in mind THE LIQUOR TRAFFIC CANNOT RUN WITHOUT THE BOYS OF THIS TOWN.

There are those who reason from a business standpoint that dry is best; that saving the most of \$600,000 a year now spent in liquor means more money for other things the law of taxes, to say nothing of the conservation of energy and effort in labor in factories and of the relations where life and property are always at stake, besides more happiness in the homes.

The Dry are made up of, first, that great moral force of home loving, straight forward men who can find the key hole and do not wait until after midnight to find it. They are the people who know a church bell when they hear it, who pay their bills, who educate their children and are not afraid their offspring will know their true sentiments in regard to these moral questions. They are those who do not let some prevalent idea of business alone put beer signs first, boys second, and houses of prostitution before their homes.

men have been put out of employment because the drink habit of liquor have made them unfit to hold any position. Vote for Local Option and make the young men of the rising generation an honor to their country and true loyal companions to their sisters, and in all respects fit subjects for mother, home and heaven; whereas, the saloons make of them brutes fit only for the demon's den. The saloonkeeper asks for more than thirty days' time to prepare for a change of circumstances, in less time than that many a once-happy home has been deprived of all support by King Alcohol. How are they prepared to meet their doom?

"Men of Licking county assert your true manhood and vote for Local Option."

A TEMPERANCE LESSON

"The two pictures shown in the Newark Express, of recent date, are worth the careful study with interest of all intelligent people. Take the first picture, for instance: what do we see in the background. In the darkest corner of that home behold a throne, where king alcohol reigns supreme, holding over that poor woman's head a motto in blazing capitals in which we read: "You are careless and slovenly dressed, your house is in disorder, nothing to sleep house with, your children are sadly neglected, hungry and ragged, living with cold and hunger." Your husband comes home after having his glass of beer, and there is no supper ready for him, or, perhaps, a very poorly-cooked supper, because

your husband is my servant. I, King Alcohol, am his tyrannical master, and demand all his hard-earned money. There is nothing left for you to cook or dress yourself or children with, and that poor miserable beer-drinking, bloated much-to-be-pitied husband of yours comes home and finds no supper ready.

"Citizens and friends of Licking county, by voting for Local Option you will not rob your neighbor, but help them to prosperity. You will not stunt the growth of our city, but aid improvement. You will not put men out of employment, but will give them honorable work. Hundreds of

Mrs. Abner Evans Writing In This Week's Issue of the Croton Citizen, Says:

men have been put out of employment because the drink habit of liquor have made them unfit to hold any position. Vote for Local Option and make the young men of the rising generation an honor to their country and true loyal companions to their sisters, and in all respects fit subjects for mother, home and heaven; whereas, the saloons make of them brutes fit only for the demon's den. The saloonkeeper asks for more than thirty days' time to prepare for a change of circumstances, in less time than that many a once-happy home has been deprived of all support by King Alcohol. How are they prepared to meet their doom?

"Men of Licking county assert your true manhood and vote for Local Option."

WHISKY RING'S ADVERTISEMENT IN LOCAL PRESS, NOV. 25th, 1908.

"Roughly but safely speaking there are 600 producing wells in Licking county farms. Each one of those wells pay to the land owners \$260 per annum, per well; and on the basis of the indicated figures in the annual revenue is in round figures \$120,000.00 per year. It is a fair statement that half of these wells will not be needed to supply the demand if Licking goes dry, and \$60,000.00 will be lost to the coffers of the Licking county farmer."

And a leading investor in Licking county gas fields said to the writer only last night that the saloon "gas statement" was all rot. Said he: "We cannot now, and never will, get enough gas in Licking county to supply the demand made upon our fields by Ohio cities for private consumption."

THE SALOON MUST GO.

Voting Saloons Out Helps Business

In the Ottawa Gazette of Friday, Nov. 27th, the leading paper published at Ottawa, Putnam county, the following editorial appeared:

"What shall we call them now, what were formerly saloons? The name always included the idea of intoxicating liquors sold under the tax. Now what are they? They are not restaurants, for feeding is only incidental. Perhaps Resorts will be as good a word as any. It is agood name, for we have summer resorts, pleasure resorts, etc. Well, most of the resorts are open again. Some of them are offering "Near Beer." Not selling intoxicating liquors, they are not under the closing law at night and can accommodate their patrons all night if they demand it, as do the restaurants.

"The situation is anything but satisfactory to the saloon men and their customers. But the drys are getting some good items in seeing men buy coal and groceries who have not done such a thing for a long time. There was the usual big Saturday crowd and trade was satisfactory too. There will be a difference until the public accommodates itself to the new conditions and business adjusts itself to the new demands. Ottawa will be on the map and the county seat as usual, where one can attend court, pay taxes, gaze on the court house, punch up the animals at the water works park zoo, get a square meal and a square deal, just the same as ever, with one exception—he can't wash it down with intoxicating liquor unless he brings it with him, and there are few enough who care to do that."

And here is another case where voting the saloon out did not "hurt business." Really the only business that was ever known to be hurt by voting these dens out was the stopping of the wheels of the Murder mills.

Fight of the People For Home and God, For Wife and Child

Some say that the Rose Law is unfair, in that the county is too large a unit and offer other excuses. But cannot the people of the county decide whether the saloon is a good thing? Some of the saloon people say it will increase our taxes to put them out, and yet they have not yet shown a single instance where taxes have been raised as a result of voting saloons, although they have been challenged for years to do so. About 18 months ago, when 55 saloons were put out of East Liverpool, a city of about 5,000, they said that the town would be dead, that the absence of the saloons would kill business and that taxes would go away up.

Not so, the fact is that business has grown better, even during hard times. The business men say they have handled more money than they did when the saloons were there. Many instances can be shown where men have been habitual drunkards, whose wives supported the family by washing, but now have gone to work to support their families, becoming honorable citizens, happy and contented. Now the poor wife or mother is not washing for a living.

Washington C. H. has been dry several years, and taxes are lower than when saloons were there. Brookville, Montgomery county, is a fair sample of a dry town. Every year, since the town was voted dry, the taxes have been reduced. More new houses have been built during the dry rule than were built in twice the time under the wet rule. Another important fact to remember is "Not a single young man in the town has become addicted to the."

strong drink since the banishment of the saloon."

A very interesting feature of this

movement is, that, of the places once voted dry, not one in forty has invited them to return. It is a well known fact that saloons have caused more poverty, crime, insanity and misery than all other agencies combined. In Cleveland last year of the 2900 commitments to the work house all but 19 said they were there because of drink.

Think of it! Kansas, under prohibition, has 37 counties without a pauper, and 27 counties without an inmate in jail. In our own state we have five counties without saloons and their jails are empty almost all the time. It is seldom that there is an indictment for a criminal offense in these counties. They have not had a saloon in Harrison county for 12 years and they have the lowest tax rate of any county in Ohio.

Mr. Good Citizen, flowery beds of ease are not for use in a campaign like this. Better arm yourself with the sword of righteousness and get into the fight and stay there until the victory is won. The saloon is not an asset, but a liability. It not only injures business, but destroys the home and strikes at the church. Since the saloon does no good, in either a moral or religious way, should we not make our faith active and put saloons out of business?

Let us aid the noble women who have fought hard and long for their children, for their church, and for their homes? Let us go to the polls and vote against this master evil and thus protect the morals of ourselves and our neighbors.

This is the fight of the people. So may we continue under the guidance of God until the last saloon is gone from the state, and the nation.

TAXPAYER.

When Licking County Goes Dry

(From the Utica Herald, November 26, 1908.)

The question is asked what will happen when our beautiful town goes dry. You'd think the saloons paid all the taxes. If you heed the saloonkeepers' cry. Now, in fact, not a tithe of the burden is paid by saloons any time. Which saloons impose on the public in idleness, poverty, crime.

The burden, drain on our finance is the money expended in beer. Shut out the saloons and I will save us full five hundred dollars a year. This money is all worse than wasted—Five miles of street we could pave, and build a fine water works system. With part of the money we'd save, six hundred fine homes, it would save us the taxes on wild land.

A far greater sum would amount to. Than all that we gather from beer. The fellow who never pays taxes, but spends all his wages for booze, whose clothes are all the better, and ragged. Whose family goes without shoes. Will then pay his bill at the grocery's. Will build for his family a home. Instead of a great public burden.

A taxpayer he will be, and a good one. An angel of light to the farmer. And all the saloonists exclaim "When whisky and beer are abolished, then what'll be one of our mainstays?"

The answer to this is a boy. That is, a child. Children can tell. We'll raise a few more boys and houses. And a great deal less sorrow and hell. None would then pray the night be translated in a new-fangled al-filing riddle. But everyone then would be willing forever to live in old Licking.

Is there a sage man within the
limits of the State who believes that
Charles P. Taft of Cincinnati would
stand a ghost of a show to be elected
to the United States Senate were it
not for the fact that his brother has
been elected President? Not merit nor
ability, but the servility of the ma-
chine politicians seeking federal
patronage, will be Taft's chief asset
in the senatorship contest.

The ignorant Hungarian strikers at
Perth Amboy, New Jersey, now know,
to their sorrow, that pre-election
promises of higher wages are not
made to be kept.

The very liberal contributions of
Cabinet Ministers, bureau officials and
Ambassadors to the Taft campaign go
to show that they have a very lively
sense of their personal interests.

Among other responsibilities the
Roosevelt administration will be
queath to its successor will be a
Treasury deficit probably amounting
by the end of the fiscal year to \$100,-
000,000. How to increase the revenue
so as to cope with the terrific increase
of expenditure will be a foremost mat-
ter of consideration by the Congress
at its coming short session. There is
a prospect of a renewed levy of inter-
nal war taxes, possibly a tax on im-
portation of coffee.

SOME LICKING COUNTY HISTORY OF GOV. HARMON

James W. Faulkner's Sunday letter
in the Enquirer contains the follow-
ing reference to an interesting inci-
dent pertaining to Governor Harmon
that occurred during his collegiate
days at Denison University. It will be
read with interest by Licking county
people as a local incident and by the
people of the state at large who have
ceased to entertain respect for certain
methods of campaign warfare by
machine politicians Mr. Faulkner
says:

"More trouble for Major General
William Fire Extinguisher Rogers
An old history of Licking county has

been dug up containing an account of
the celebration at Granville of the vic-
tory of Grant at Appomattox. It ap-
pears that one of the speakers at the
gathering was a student named Jud-
son Harmon of Cincinnati. So patri-
otic was his speech and so filled with
eloquence and fervor that the audi-
ence was carried off its feet, so to
speak. The president of the meeting,
after the address was closed, warmly
congratulated the youth and said: "If
you are not spoiled while you are
young the country will hear from you."
Apparently the chairman was
gifted that afternoon with prophetic
vision. Yet the gory, fire-striking
warrior from Cleveland would have it
during the campaign that Judge Har-
mon was really on the "Copperhead"
order. Incidentally it may be said
that "Uncle Andy" Harris rather
pressed this Rogers business fairly
close to the limit. All of which brings
up the query whether it is not about
time to cease working the G. A. R. in
the interest of Republican politicians.
The recent address of the National
Commander-in-Chief shows that only
one-third of the surviving veterans of
the Civil War are members of the
organization. He urges upon his fel-
low members to plead with their old
comrades to close up the ranks. It is
no secret that there are thousands
of veterans who remain aloof from
this worthy society simply because it
is being used as the adjunct of a po-
litical machine. Too much General
Rogers, too much Colonel Curry, too
much fake patriotism, the last refuge
it has been said, of a political scound-
rel."

HICKORY CANE PRESENTATION TO GOV. HARMON

POPULAR TRIBUTE PROPOSED BY
LICKING COUNTY DEMOCRACY
ON INAUGURATION DAY.

Subscription of 25 Cents from Each
Democrat Who Desires to Donate
Will be Received at Adv-
ocate Office.

The Democracy of Licking county
appreciating the fact that one of the
ablest and most eminent men of the
nation was elected Governor of Ohio
on November 3, 1908, and appreciat-
ing, too, that Judson Harmon's elec-
tion means an important step in the
return of the Democratic party to
power and prestige that has not been
enjoyed in recent years, propose a
popular manifestation of their esteem
in a tribute to be presented to the
new Governor on his inauguration
day.

That tribute is to be a Licking
county hickory cane.
The movement for the cane presen-
tation has already been started. A
number of fine hickory sticks have
been obtained and are being carefully
dried preparatory to finishing.

A small sum of money will be need-
ed to purchase a gold head for the
cane, to pay for engraving the same
and the finishing of the stick.

This sum is to be raised by popu-
lar subscription, each Democrat to do-
nate 25 cents and no more.

The subscription will be received at
the Advocate office and the name of
every subscriber will be printed in
the paper. Democrats can call at the
office of send the 25 cents by mail or
otherwise. It is desired that Demo-
crats can call at the city be represented in paying this
tribute to the new Governor.

TROPICAL FRUIT GROWN IN TEXAS

Who thinks of Texas as being a
land of bananas, oranges, lemons and
other citrus fruits? One generally
thinks of large ranches with cattle
and sheep. Along the whole Texas
coast country quite an interest is
being taken in the culture of citrus
fruit and by calling the attention of
northern people to the climate and
products Texans hope to secure a
good class of American settlers.
They want and need the enterprise
of the northern American to develop
the country, and he is gladly welcom-
ed and made to feel at home.

There was recently received by
Mr. Charles B. Stevens, of the Lick-
ing County Bank, a box of samples
of the fruits of Goliad county. It
gave a pleasant glimpse of the south-
land to note the beautiful and frag-
rant fruit attached to the limbs,
among the green leaves. Among
other specimens were some young
bananas, some "Ponderosa" lemons,
which weighed 1 1/2 pounds, and
measured in circumference, 14 1/2
inches one way, and 15 1/2 inches the
other. These latter received first
prize at the San Antonio fair. There
was in contrast to these some Cuna-
do oranges, about the size of a
pigeon egg, weighing less than one
ounce. This is a Chinese and Jap-
anese fruit used for preserves.

There were some Japanese oranges,
and samples of the ordinary orange
and lemon of commerce, which were
exceptional as to shape, size and
smoothness.
The peculiar thing about it all is
that none of these samples were pro-
ducts of groves under cultivation as
industry. They were all taken from
trees planted merely for ornament,
and grown right in the town of Gol-
iad. After seeing these specimens
one can better realize that Texas is
a country which can produce this
fruit profitably. A letter to Mr.
Stevens stated that there were trees
in the town from which 1000 oranges
have been picked this year, and they
still appear laden with the golden
fruit.

"WET" TOWNS HAVE REDUCED TAXES

Statistics From Many Ohio Cities
Prove Falsity of Claims Advanced
by the Prohibitionists.

To the Voters of Licking County:
The prohibition managers in Lick-
ing county have repeatedly made the
false statement that taxes have never
been decreased in towns in which
saloons are operated. In view of this
misrepresentation we believe that the
voters of Licking county are entitled
to the facts.

That the revenue from saloons con-
tributes largely to reducing taxes is
proven beyond any possibility of doubt
by statistics contained in the 1907 an-
nual report of the state auditor of
Ohio. These statistics show that
many cities, in which are saloons, in
1907 made a material reduction of the
tax rates from the rate of 1906. In
addition to reducing taxes many of
the towns have funds derived from
the saloon tax to make public im-
provements and provide adequate
sinking funds to pay interest on bonds
and redeem them when due.

The favorite argument of the Anti-
Saloon League and its agents is that
saloons in cities increase taxes, while
towns without saloons reduce taxes.
It will be found that in those few
towns, without saloons, in which
taxes have been reduced, the munici-
pality has made practically no public
improvements and that issues of
bonds have been necessary to provide
for their ordinary running expenses.

The following is a list of Ohio
cities having saloons which reduced
their tax rates in 1907 from the 1906
tax rates:

Cities.	1906	1907
Lima	\$8.00 mills	\$5.60 mills
Delphos	39.00 "	35.00 "
Bluffton	40.80 "	38.90 "

cake flour. Your grocer has a fresh
supply.

EDWARD H. EVERETT WRITES CARD TO VOTERS ON LOCAL OPTION QUESTION

Since my return to Newark Satur-
day morning many of my Newark
friends have asked my opinion in re-
ference to Temperance Legislation,
and what effect, if any, it would have
upon the business of The American
Bottle Company.

The question soon to be decided by
the voters of Licking county is one of
PROHIBITION, not a temperance, or a
question of moderation, or regula-
tion, such as would be implied by
Temperance Legislation, which means
moderation and would not in my
opinion materially injure the business
of the American Bottle company, and
personally I strongly advocate such
TEMPERANCE Legislation.

PROHIBITION means to prohibit,
and to prohibit the manufacture and
sale of beer means ruin to the busi-
ness of the American Bottle com-
pany, whose specialty is beer bottles,
and not only ruin to the American
Bottle company, but to all kindred
industries of the United States.

I am not making this statement
with a view or belief that it will in-
fluence the extremely radical PRO-
HIBITION man, or to enlist his sym-
pathies. I merely make this state-
ment of the facts in answer to the
questions that have been put to me.

Brewers that have already gone
out of business on account of the
prohibitory laws have decreased the
demand for bottles to the exact ex-
tent of what they would have used
had they continued in business, and
should the hope of the radical PRO-
HIBITION advocate be realized, and
all the breweries of the United
States be PROHIBITED from doing
business, then not only will the beer
bottle business of the United States
be an industry of the past, but like-
wise all other business dependent up-
on the brewery and supplying its re-
quirements.

Should this condition arise not only
will the blower be out of employ-
ment, but the bottle blowing machine
as well.

In reference to the American Bot-
tle company's bottle blowing ma-
chine in connection with the blowers,
I am glad to say that the machines
had not been operated on the lines
of PROHIBITION, but during their
several years' existence have been op-
erated with consideration for the mu-
tual interest of both the manufac-
turer and the blower, in fact, in a
TEMPERATE MANNER, and is
not asking everything of the blowers
of beer bottles. But this PROHIBI-
TION AGITATION if successfully car-
ried to a final issue as hoped for by
its advocates, does ask all, whether
the business has been previously sup-
plied by the bottle blowers or the
machines, either or both.

The blowers and the machines are
in the same boat. PROHIBITION
will wreck this boat and its occu-
pants. To show that this boat is at
present in need of assistance will say
that were it not for PROHIBITION
in many of the states and counties
other states and the present agitation
a large majority of blowers now idle

BECOMING THE TOPIC OF UNIVERSAL INTEREST

The remarkable results that are be-
ing accomplished throughout the
state by the new remedy, Root Juice,
is rapidly becoming the topic of uni-
versal interest. So many people are
praising the remedy that the general
interest in it is becoming widespread,
and it is now being sold in such
enormous quantities that it is hard
to supply the demand. It seems to
soothe, heal and strengthen the stom-
ach, liver, kidneys and bowels with
such rapidity that those who have
suffered for years with indigestion,
rheumatism, kidney troubles and ner-
vousness notice great improvement
before they have used the first bot-
tle.

Mr. John K. Stevens, police officer,
of 1213 Summit street, Fort Wayne,
Ind., said: "I am glad to be able to
truthfully say that I have found the
great remedy to be all that was
claimed for it. My kidneys and blad-
der were in a bad condition before I
commenced taking it and had been so
for some time, but I am now glad to
say that I am entirely cured, and
many of the city have told me the
remedy has cured them."

The great remedy has cured many
people at this point within the last
few months. It is sold for one dollar
a bottle, or three bottles for two dol-
lars and a half. Those who wish to
know more about it and would learn
of the many cures it has made, should
go to The City Drug Store.

Itching, bleeding, protruding or blind
piles yield to Doan's Ointment. Chronic
cases soon relieved. Finally cured. Druc-
gists all sell it.

throughout the United States would
be at work.
I have formed a strong attach-
ment for Newark and Licking county
during my twenty-eight years of
business, which has proved remuner-
ative to me, and I know likewise to
others, and I shall use all honorable
and consistent means to protect such
interests and have same continue mu-
tually beneficial.

I do not question the honesty of
purpose of those advocating PROHIBI-
TION, and likewise ask the same
consideration from them as to my
honesty of purpose, and to those that
agree with me in our championship
of temperance, which means MODER-
ATION AND REGULATION, and to
encourage true manhood in our boys
and young men.

Again, I am pleased to say, that
there are men now living in Newark
and elsewhere, beyond question fine
citizens, that I have personally seen
a decided factor in saving them from
ruining themselves (and those de-
pendent upon them) by the drink
habit (intemperance). This result
was accomplished, not through PRO-
HIBITION LAWS, which would not
have been of any assistance whatever,
but instead by personal and direct
appeal to the men themselves, and by
other means. Get at the INTER-
MEDIATE MAN. Work to CONVERT
HIM.

And I can add, I believe without
fear of being successfully challenged,
that in this respect, I take my hat off
to no man in Newark, be he ever so
strong a prohibitionist, and I further
believe that those who know me will
be assured that I make this state-
ment free, entirely, from any sense
of egotism.

I can not keep the thought out of
my mind, if the energy and time be-
ing consumed with PROHIBITION
LEGISLATION, as well as expense,
controversies and contentions now
being carried out, should instead be
devoted on the line above mentioned,
a more desirable result would be ac-
complished.

I am further of the opinion, that
the majority of the citizens of New-
ark and Licking county will in their
hearts and minds concur with me,
and not only vote as they think, but
by voicing their sentiments and con-
victions, gain votes which will result
in Licking county voting AGAINST
PROHIBITION.

It goes without saying that I am
proud of Licking county. I have rea-
son to be, but I will be even more
proud if I can in future say, LICK-
ING COUNTY DID NOT SUSTAIN
PROHIBITION.

Finally, the voters of Licking
county are either for or against pro-
hibition. Let us have the courage of
our conviction by making our posi-
tion plainly understood, thereby gain-
ing or losing adherence according to
the worthiness of our cause. This is
due to ourselves and to the welfare
of our country, for in my mind the
question is most serious.

Yours sincerely,
EDWARD H. EVERETT.

Newark, O., Nov. 30, 1908. d&w1

THIS AND THAT

Four vacation days ought to be suf-
ficient for the scholars to recover from
the recent Thanksgiving festivities.

The next holiday on the calendar
is Christmas. Do your shopping early.

A dentist need not necessarily be an
artist just because he draws teeth.

It takes twenty-seven days to bury
the emperor and dowager empress of
China. Must be pretty deep graves.

RUNAWAYS

Mr. Garry Hill of This City, Figures
in Two of Them in One While
Visiting Relatives.

Mr. Garry Hill, of the Buckeye Express
Line, tells of a harrowing time that he
experienced while on a visit last week
to his brother-in-law, Mr. Dayton Hurlbault,
who lives about four miles southwest of
Alexandria.

Mr. Hill and wife had a pleasant
Thanksgiving with their relatives, and
Friday morning Mr. Hurlbault hitched
up a horse and started to take Mr. Hill
to Johnston to attend the stock sale
at that place, and when about a mile
away from home the horse commenced to
kick and upset the buggy, and both occu-
pants were thrown out and dragged
quite a distance. Mr. Hill in some man-
ner got the lines and succeeded in stop-
ping the frightened animal. Both of
the gentlemen were badly bruised, but are
able to be around. They then started to
walk the remainder of the distance to

BANKING REMINDERS

EXCHANGE—If you are going to send a little Christmas money to the folks in any part of the States or Canada, or in the old country, it is time to think of a visit to our Department of Foreign and Domestic Exchange.

CERTIFICATES—For idle money that will be required in a few months, it is best to take out an interest-bearing Certificate of Deposit. Make your money earn something.

SAVINGS—Lack of decision to make the START has kept many a young man from joining the "Get-a-head class." Now is always a good time to do a sensible thing.

WEST POINTERS VICTORIOUS OVER THE NAVY IN GREAT GAME AT PHILADELPHIA

PHILADELPHIA, Nov. 29.—In one of the fiercest football games seen on Franklin field this year the Army vanquished the Navy Saturday afternoon by the narrow score of 7 to 4, a touchdown and a goal against a goal from the field. Thirty thousand persons saw the husky cadets from the Hudson conquer the sturdy midshipmen from the Severn in a contest that never lagged. The naval boys were fairly overwhelmed with the power shown by the West Point cadets. The Annapolis boys entered the game practically sure of victory, while the West Point cadets only hoped to win.

REV. (?) SMILEY A FRAUD LIVINGSTON HAS RECORD

Discredited Blasphemer is Now in Licking County Making Speeches to Save the Saloons.

In response to an inquiry by wire of J. H. Miller, chairman Licking County Local Option League, to the pastor of the leading Christian church of Kansas City, the following telegram was received today:

"Kansas City, Mo., Nov. 30. J. H. Miller, chairman Local Option Committee, Newark, Ohio.

Mr. Smiley is neither minister nor member in the Christian church of Kansas City.

"W. F. RICHARDSON."

"9:26 a. m."

The Ohio edition of the "American Issue" for October 19, 1908, says of Smiley:

"The saloon element of Ohio has put on the stump one alleged Rev. Mr. R. Findlay Smiley of Kansas City, either of Missouri or of Kansas. He does not seem to be doing his Liberal League and Personal Liberty League employers much good. Nevertheless, his pedigree is worth looking into."

STRANGE TALK FOR A MINISTER.

He is ostensibly a minister in the Christian Church of Kansas City, Mo., and yet he goes around preaching that God made a mistake in Eden in prohibiting the fruit of the forbidden tree—strange doctrine for a minister in that church. Thus at Good Fellows Hall, Cleveland, September 28th, he said:

"We may go back as far as the Garden of Eden to prove that prohibition encourages intemperance. Adam and Eve were given permission to eat the fruit of all trees in the garden save one. Naturally they ate of the forbidden fruit. Had any other tree in the garden been forbidden the result would have been the same."

When it comes to an alleged Christian minister criticizing the Almighty regarding the biblical record of the Garden of Eden, it is pretty strong evidence that there is a screw loose somewhere in the man's head.

ADVISES THAT CHILDREN BE TAKEN INTO SALOONS.

Another remarkable outburst of the reverend "pastor" in the same speech is as follows:

"Don't smoke, and don't drink, leaving your child on the street. Take care with you, and don't drink, and don't drink to excess. When you have finished your drink, go to a saloon, and your child to your home. I am sure you will thank me for that. I am sure you will be more apt to do as I say than he will had you not heard of me."

This and other remarks of the same sort have produced a feeling of indignation among the people of Licking County. Mr. Smiley was seen at Athens in the camp of the Anti-Saloon League, for the State League, the answer was in part as follows:

"Gentlemen: I have been trying ever since receiving your telegram to get some information concerning the Rev. R. Finley Smiley and have only this morning gotten anything authoritative. None of the ministers seemed to know him. He is not a pastor, and never has been so far as I can learn. He is reputed to be a member of the Christian denomination. Dr. Richards of that church, an authority for this region, reports this morning that he has no standing with them and that he considers him a renegade."

(Signed) "SAMUEL GARVIN."

It will be recollected that Kansas City, Kansas, is directly across the river from Kansas City, Mo., that the two are in fact one city, and that the ministers of one section would be informed regarding the ministers of another.

More to the point is a letter from a leading citizen of Kansas City, Mo., who responds under date of September 5, to a letter of inquiry from our headquarters in Columbus, O., for the antecedents of Mr. Smiley. The letter of reply is, in part, as follows:

"I have finally been able to run down that Mr. R. F. Smiley. It seems he is accredited to this city rather than Kansas City, Kansas, and poses as a minister in the Christian church, but the president of the board of that church in this state, having supervision of the ministerial standing, says that Mr. Smiley never had any recognized standing in their denomination, that he never has preached in this city, and so far as he can find out, has never been connected with any of their churches. They regard him as an impostor and a humbug. They say further that he was once a temperance lecturer, but got out of favor with the temperance people, and so, being out of a job, sold himself to the liquor interests. They repudiate him absolutely."

This is the light we have up to the present time regarding the antecedents of Mr. Smiley. He seems to be repudiated by the denomination in the place to which he accredits himself.

His utterances are utterly out of character with those of a member of the Christian ministry, and the best information we have obtained, as shown above, is simply discreditable and repulsive.

HOW TO CURE SKIN DISEASES.

The terms that cause skin diseases must be drawn to the surface of the skin and destroyed.

ZEMO, a clean liquid for external use, will do this and will permanently cure every form of itching skin disease.

For sale everywhere. Write for sample, E. W. Rose Medicine Co., St. Louis. For sale by Evans Drug Store.

Has Never Been Out of Athletic Contest Since Entering Denison University.

Granville, Nov. 29.—Walter Livingston, Denison's football captain and all-around star athlete, has made a record which has probably never been equaled by an Ohio athlete. For four years he has been at Denison, and during that time

he has played in every moment of every athletic contest Denison has had with rival institutions. Besides this, he has attained a high standing in class room work and has been active in every phase of college life.

AS BASKETBALL PLAYER.

For three years he was varsity basketball captain, and last year, when the team was needed in the line, he went to the middle position and has played a good game there.

It is a happy fact that "Livy" is a student of the Denison University, and that he has been active in every phase of college life.

Prices of all living increased, the only exception Mrs. Austin's pancake flour. Some old price at all best grocers.

For any pain, from top to toe, from any cause, apply Dr. Thomas' Electric Oil. Pain can't stay where it is used.

FEEBLE OLD LADY

Has Strength Restored by Vinol.

Mrs. Michael Bloom of Lewistown, Pa., who is 80 years of age, says: "For a long time I have been so feeble that I have had to be wheeled around in an invalid's chair. I had no strength and took cold at the slightest provocation which invariably settled on my lungs, and a cough would result. My son learned of the cod liver preparation called Vinol, and procured a bottle for me. It built up my strength rapidly, and after taking three bottles I am able to do most of my work, and I can walk a quarter of a mile easily. Every aged or weak person who requires strength should try Vinol. I am delighted with what it has done for me."

As a body builder and strength creator for old people, delicate children, weak, run-down persons, and after sickness, Vinol is unexcelled. If it fails to give satisfaction we will return your money. Frank D. Hall, Druggist, Newark.

A New York tradesman of long experience says that the hardest persons to collect bills from are those who have no money and those who have a great deal of money.

STUDY OF ALIENS.

College Men Follow Immigrant Trail to Its Beginning.

SCHEME OF THE Y. M. C. A.

Experience of Students While Getting First Hand Knowledge of Slovak Races in Europe—To Become Secretaries in Coal Mining Regions.

Dr. E. A. Steiner of Iowa college, Grinnell, Ia., author of the most interesting books in print which give the intimate story of the European immigrant to America, lately landed in New York from Europe, where he led a party of recent college graduates from Texas to Pennsylvania in a study of the immigrant in his home. The men were sent out by the Pennsylvania state committee of Young Men's Christian associations to spend a year abroad, on their return to take positions as general secretaries of Young Men's Christian associations in the coal mining regions of that state.

Their trip became a missionary journey from the start. With their popular songs and hymns, unbounded good nature and unobtrusive interest in everybody, they made their influence wholesomely felt. When on the streets of Rotterdam a young man greeted them with these words: "Boys, you were a godsend to me. I came on board ship drunk after a terrible spree, and I want to tell you that your life in the steerage has made such an impression upon me that when I return to the States I wish to join the Y. M. C. A."

Their plan was to discard railroads, so they bought bicycles and wheeled up the Rhine and pedaled up the Carpathian mountains to get into close touch at the source with the vast stream of humanity which is pouring into their native land.

Under the lead of Dr. Steiner, who was born in Austria and commands nearly a dozen European languages and dialects, the college "boys" studied the language, customs and country, worked in the harvest fields and gathered fruit in the orchards with the peasants, learned the villagers' folk songs in the evening and in their turn sang the college and church hymns. They found a friend in every returned immigrant, and the natives to whom America was the "promised land" received them with open arms. Dr. Steiner said that immediately when they learned that he was European born they gave their attention to the boys, the real Americans. They had for their schoolmasters in a mission school where they stopped in the heart of Poland, Russians, Lithuanians, Poles, Bohemians and Jews, the very best type of men whom they needed to know.

Commissioner Robert Watchorn considers this movement of the Y. M. C. A. the most significant in its possibilities of influence among the immigrants from Europe of any of the organization has undertaken. These men will know the people with whom they are to live and serve as secretaries of associations in the mining field of Pennsylvania. Other such training expeditions directed by Dr. Steiner will undoubtedly follow. The students will spend the balance of the year in Europe with the Bulgarians, Lithuanians, Austrians and in Italy, from which countries come the greater bulk of the immigrants to America.

The international and world committees of the Y. M. C. A. are stationing men at the great ports of debarkation of the old world, who are distributing literature about America and introducing different languages—a part in a chain of influence beginning from the distant interior towns and continuing from the ports of sailing, possibly including later trained association secretaries who will sail with the immigrants in the steerage. Immigrants are now met at the ports of New York, Montreal, Boston and Philadelphia by secretaries and introduced to branch associations throughout the country as far west as the mining camp of Taft, Mont.; a construction camp in Roslyn, Wash.; the copper mines of Arizona and lumber camps of Louisiana. Dr. Steiner said: "The people marveled that there was not a money making scheme back of the enterprise, but most of all that none of the college fellows drank even the light beer of the country or smoked and at their purity and simplicity of life as well as their physical vigor. They were college athletes and took part in the native games. They introduced baseball and gave some of the American citizens to be the first lessons in the national game."

Plan to Honor Grover Cleveland.

Plans were made the other day at a meeting held in the office of John F. Dryden, formerly United States senator, in Newark, N. J., for the incorporation of an organization to be known as the Cleveland Memorial association. It will have for its object the erection of a monument in Princeton, N. J., at a cost of not less than \$100,000, to the memory of Grover Cleveland. Mr. Dryden was chosen president of the organization. In order to have the memorial thoroughly representative it was decided to call upon the people of each county in the state of New Jersey to raise a proportionate amount of the \$100,000.

MANUFACTURES INJURED BY PROHIBITION

Interests of Paramount Value to Newark and Licking County Testify to Important Factor.

The following communication from Mr. I. W. Richardson, Jr., secretary of The North Baltimore Glass Company, of Terre Haute, Ind., to a correspondent in Newark, discloses the actual condition which prohibition has created, as far as it has gone, in the bottle manufacturing trade of the Middle West. The bearing which these conditions have upon one of the leading industries of Newark will be well understood by all intelligent persons in Licking county. It is evident from this testimony as well as from other facts whose truth is apparent on their face, that prohibition in Licking county would be a serious blow to industries which furnish employment on a large scale in the city of Newark and contribute very materially to the prosperity of the entire county by thus increasing the population and business welfare of the county seat.

Mr. Richardson's letter is as follows:

"Terre Haute, Ind., Nov. 27, '09. "R. Dold, Esq., Newark, Ohio.

"Dear Sir: Your letter of the 25th instant, enclosing clipping from one of your local papers, is at hand, and it is very evident from the statement attributed to Mr. Haag, that he was either misunderstood or was not sufficiently informed of actual conditions which confronts the bottle manufacturers. A very insignificant percentage of our sales has been created by the use of so-called 'temperance beer,' while on the other hand the growth of 'dry' territory has materially decreased the general demand for bot-

ties of our manufacture, and IN CONSEQUENCE WE ARE NOW ONLY OPERATING A PORTION OF OUR PLANT.

"Noticing that Mr. Fitzgibbon is taking active interest in the discussion, you are hereby authorized to exhibit this letter to the gentleman, or any other interested party.

"Yours very truly,

"THE NORTH BALTIMORE BOTTLE GLASS CO.

"I. W. Richardson, Jr., Secy." adv.

Hollister's Rocky Mountain Tea is like electricity. Goes to every part of your body, bringing new blood, strength and vigor. It makes you well, keeps you well. 35 cents. W. A. Erman & Son.

Shouting Proverbs.

A game of proverbs in which a signal from the guesser all the players call out the words that have been assigned them at the same moment. This may be repeated any number of times agreed upon beforehand. If the guesser tries to listen to all the words at once he will find it very hard to understand any of them, but if he stands near one player at a time and listens only to him the proverb is easy to catch. For this reason the guesser may be required to stand at an equal distance from all the players. They may sit in a circle while he stands in the middle.

Convective Currents.

Doubtless there are many boys and girls who do not know what a convective current of air is, says Chicago News. It is a current that has been heated and in rising carries the heat with it. Colder air at once takes the place of the heated air, and that in its turn, is heated and rises. It is by convective currents that the earth's atmosphere is heated. The sun imparts little or none of its heat to the air. It is the earth's surface that it heats. The surface throws off that heat in convective currents, and the air receives and retains it.

Warships are called for in Haiti again, so that country must be in its usual state of eruption.

RELIGIOUS INTERESTS AROUSED

Philadelphia Church Council May Probe Affairs of Anti-Saloon League.

Recent disclosures indicate clearly that even among the churches of the United States the methods of the Anti-saloon League are not gaining in favor. There is a disposition apparent both among the clergy and the laity to probe the inside affairs of the League and ascertain by what right that organization can lay further claim to the support of religious people.

The following editorial from the Boston Daily Advertiser is very suggestive of this condition and should be read carefully by all voters of Licking county who are now asked, not only to give financial aid in support of the Anti-saloon League, but also to promote the interests of the salaried officials of the league by voting Licking county "dry":

ANTI-SALOON LEAGUE METHODS. Editorial from the Boston Advertiser:

"On December 2d there is to be held at Philadelphia a council of churches, and a demand has been made that before the churches allow any more church collections in aid of the Anti-saloon League, some investigation of its finances be made.

"C. R. Mabey, a distinguished worker in the temperance movement, has publicly made charges to the effect that the political influence which the League exerts over churches, and its endorsements of candidates for public offices, have both been offered for sale; that contributions from political interests have been recorded on the books of the League by the use of fraudulent entries; that the League continues to employ, with the full knowledge and consent of its officials, men in prominent positions in its work, over whom it is possible to exert undue influence of a political and financial nature by virtue of the fact, that, in the past, these men have been guilty of the grossest kind of intrigue; that no church or person would donate one cent to the League if its corruptions were openly exposed, and that the League has persistently fought the cause of prohibition in certain states and has been instrumental in the defeat of prohibition and in turning other states over to the liquor interests.

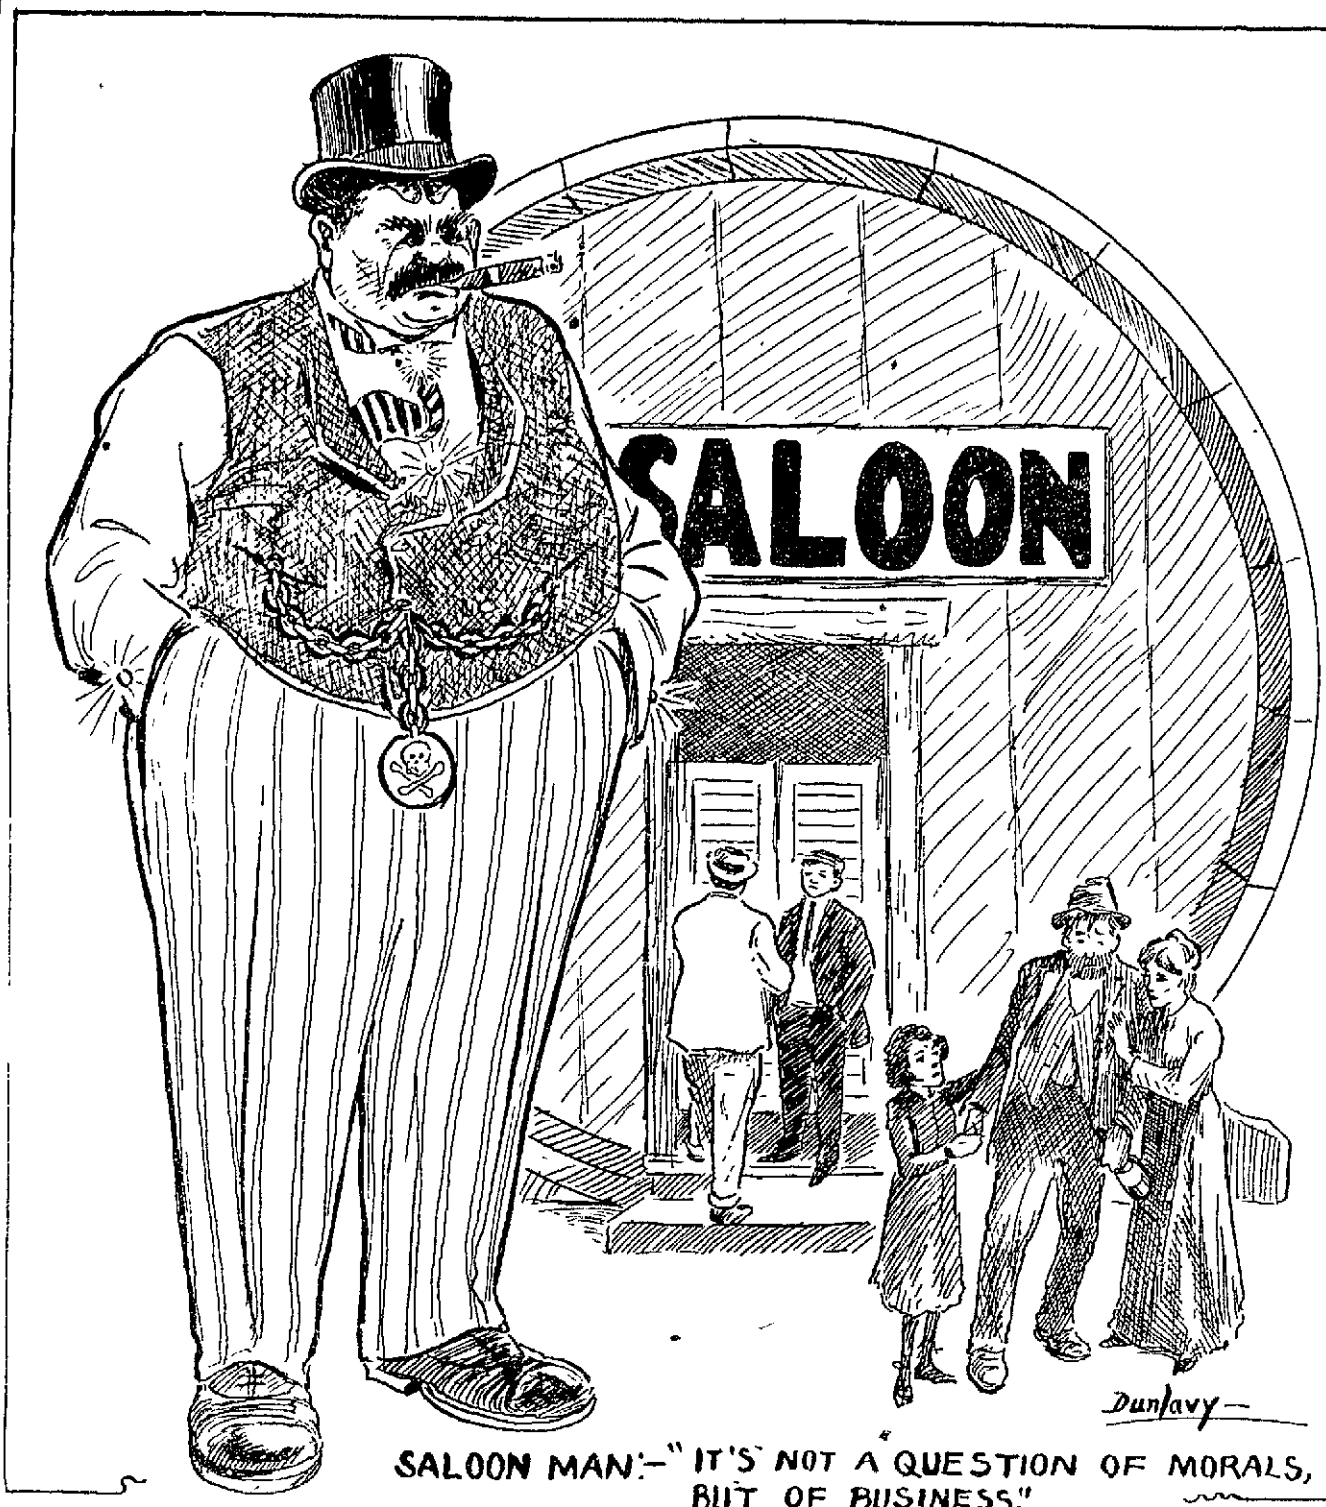

"In response to a reply that the churches could not afford to investigate the matter at their own expense, a fund of \$1,000 has been deposited in a bank at Columbus, Ohio, to justify the expense of auditing the accounts. In view of that action, can the churches afford to ignore such positive and pointed charges?" adv.

CARD OF THANKS.

The Ladies Aid Society and Sewing Circle of St. John's Evangelical church desire to thank all of those who so kindly assisted and donated so generously to our Bazaar and helped to make it a success. Thanks to the business men, and especially to A. H. Heisey & Co., for their very generous donations. The Committee: Mrs. M. T. Taylor, Mrs. J. Baker, Mrs. Simpson, Mrs. Joe Hetrick, Miss Anna Dase and Mrs. Henry Reber, Chairman.

Trade of the United States with its American neighbors in 1907 amounted to nearly \$1,000,000,000, against a little more than a third as much a decade ago.

Much as rain is desired hereabouts there is no longing for Arkansas tornado accompaniments.

RAVING IN DELIRIUM IS BELOVED NEWARK CITIZEN

Saloon Keepers Start Men on Downward Road But Desert Them in the Hour of Their Extremity.

For the Love of God and Humanity, For the Sake of Home, Wife and Children, Men of Licking County Vote to End These Woes.

A prominent business man in the city of Newark and one of the most popular men in Licking county, a man highly regarded and loved by all of his friends and fellow men, an old time citizen and possibly one of the best known men in Licking county, whose only weakness was his inability to resist the temptation of intoxicating liquors, has been for the past two weeks upon a drunken spree and was finally taken to the Newark Sanitarium, and being unable to relieve him of the fit of delirium tremens, he was taken to the county jail, and put behind the bars, and now he is passing through all the agonies of delirium caused by drinking, and fear is entertained by his physicians and his friends that his reason is so badly dethroned that it cannot be restored. The saloon keepers who put him there are not looking for him now, and it is his friends, who never take a drink and are against the business who are the men who are most deeply interested concerning his welfare.

The man-tempting, reason-dethroning, soul-destroying saloon must go. For God's sake, men of Licking county, get in line, and help make it go.

CITY MEETINGS

Rev. J. N. Scholes and Judge Seward Will Speak at the Armory This Evening.

Dr. Courtney will speak Tuesday evening. He is one of the strong men on this subject.

Street meetings if the weather permits, this evening.

Rev. Mr. Lick of Washington C. H. will speak at the Pine Street Christian Union church tonight at 7:30. Mr. Lick formerly was the pastor of the East End M. E. church, but has lived in Washington C. H. for two years and he will tell you something about how a dry town gets along without the saloon.

Following is a list of assignments made outside of the city of Newark, by the Local Option committee, additions being made daily:

Tuesday, December 1.
Brushy Fork church—Charles W. Montgomery.
Hazel Dell school, Madison township—Andrew S. Mitchell.
Lock—W. H. McDaniel.
Five Points—Bunyan Spencer, John S. Graham.
Jacksontown—L. C. Sparks.
Orson Hill school, Monroe township—S. M. P. Nesbitt.
Sharon Valley school—T. C. Biddle.
Burnside school—Monroe township—Judge Donley, John Cunniff, of Chicago.
Wednesday, December 2.
Flatstown—U. G. Porter.
Lakeside—E. S. Randolph.
Johnstown—Edward Kiefer.
Goshen—Paul Kemper, N. D. Creamer.

STICK TO THE ISSUE

The wets are endeavoring through the newspapers in Newark to create a manufactured sentiment in what they allege to be an attack on Mr. Kochendorfer. A reference to the article printed which was a reply to the mis-statements made in the German Express will show that not one word was said concerning Mr. Kochendorfer. In fact, it has not been claimed that the article which appeared in English in the German paper was written by the editor of that paper at all. If the public is interested enough to care to know who wrote the "stuff" referred to, they can probably have their curiosity satisfied by applying to one, Frederick Clarence Sites, whose great claim to distinction is that he is the secretary of the Personal Liberty League of Licking county.

Williams' Kidney Pills.

Have you neglected your kidneys? Have you overworked your nervous system and caused trouble with your kidneys and bladder? Have you pains in loins, side, back, groins and bladder? Have you a flabby appearance of the face, especially under the eyes? Too frequent a desire to pass urine? If so, Williams' Kidney Pills will cure you. Price 50 cents. Sold by R. W. Smith, Newark.

ESTABLISHED 1876.

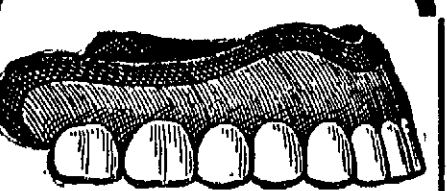

Bentley's White Lily Catarrh Cure has become the leader. It's a necessity now in thousands of homes, because it is helpful, wholesome and clean. A scientific remedy. Strongly antiseptic and disinfectant, which renders it highly sanitary and prophylactic and contains nothing in the least harmful. No opiates, cocaine or mercury. After one trial it will make friends with you in spite of yourself. A prompt relief for sore throat, cough and colds. Ask your druggist. 25c.

STICK TO THE ISSUE

The plan of the "wet" campaign is to endeavor to draw the minds of the people to irrelevant matters, and to keep them from sticking to the one issue which in Licking county today is that the tax-increasing, crime-breeding saloons must go! (adv.)

ECZEMA IS NOW CURABLE. ZEMO, a scientific preparation for external use, stops itching instantly and destroys the germs that cause skin diseases. Eczema quickly yields and is permanently cured by this remarkable medicine.

For sale everywhere. Write for sample, E. W. Rose Medicine Co., St. Louis. For sale by Evans Drug Store.

Milk-white floors—spotless and wholesome enough to "eat off"—is the quick result when GOLD DUST is added to your scrubbing water

Floors and doors and woodwork are hard to clean thoroughly because the dirt gets ground into every crack and crevice.

Soap and mop all you will, the job at best will be only partly done.

A heaping tablespoonful of GOLD DUST added to your scrubbing water will make it search out dirt, grease, germs and impurities from every cranny, and cleanse and purify wherever it touches.

GOLD DUST also relieves you of that weary, torturing grind of bending and scrubbing, because it does all the hard part of the work without your help. Soap makes housework hard work. Let GOLD DUST ease the burden.

"Let the GOLD DUST finish the work"
